

Integrated Payroll Management

Statutory and legislative Payroll requirements have, over the years become more daunting.

The Talenger payroll solution is a feature-rich, tried and tested module that fully integrates with the Talenger Human Resources System. It may also be used as a stand-alone application. Talenger offers payroll technology either for in-house payroll administration or alternatively as an outsourced payroll solution.

Whatever your preference - the Talenger payroll will always ensure that you remain legally compliant.

Talenger Payroll has made payroll processing simple, reliable and economical. Among the outstanding benefits of the Payroll system is its ease-of-use. It is menu driven with pop-up windows, cursor sensitive online help text, and has thorough documentation and a wealth of standard reports. The system is very easy to implement. Implementations are usually done within a fraction of the time and cost of competitive products. The Talenger standard implementation methodology ensures that all implementations are done according to strict guidelines that will minimise disruption to the payroll administrative process.

What we deliver

All Talenger products are web-based and can be acquired as hosted or locally installed services. Our suite of products is packed with comprehensive functionality at competitive prices. Features offered with every software package include, but are not limited to:

The Talenger Payroll is available as an ASP service or a locally installed application within your network.
